Quel futur?

Can it be DONE ?

Our Popular Inventions
Series

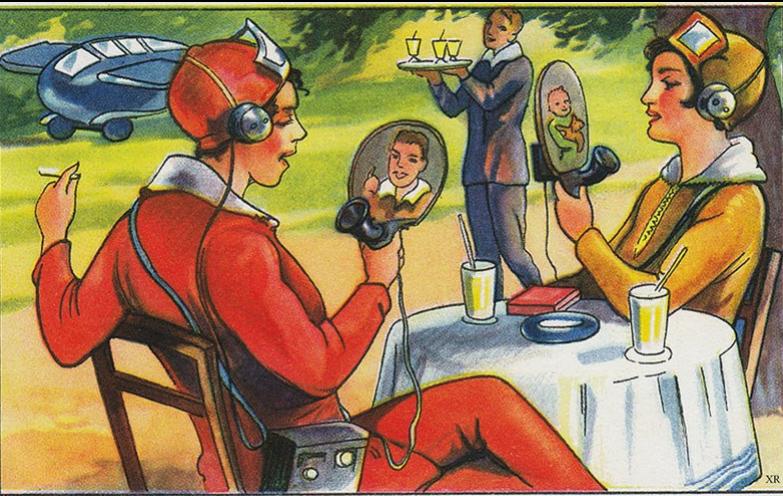

HM - TWENTY DEAD
AND FIFTEEN MISSING!

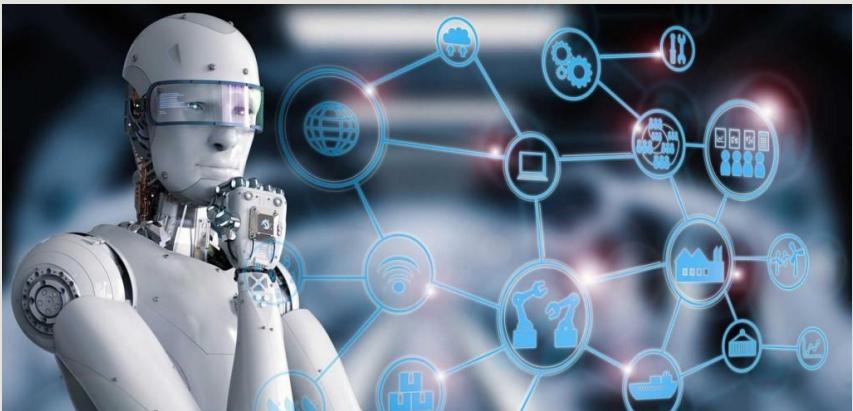

TELEVISION NEWSPAPER

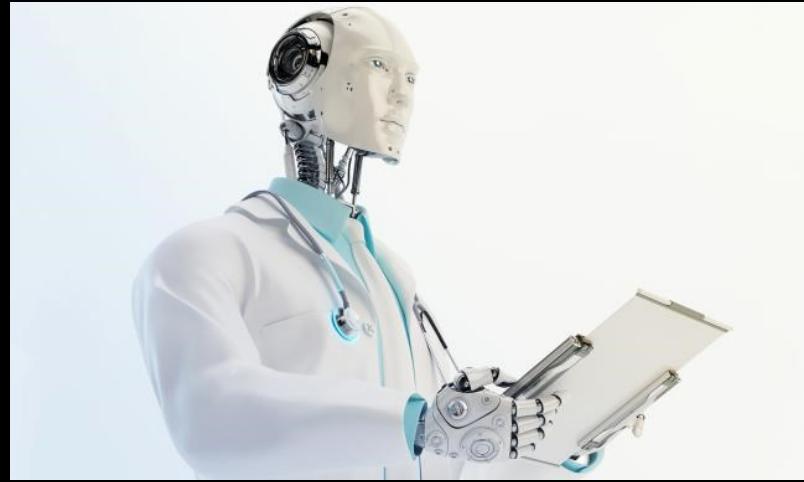

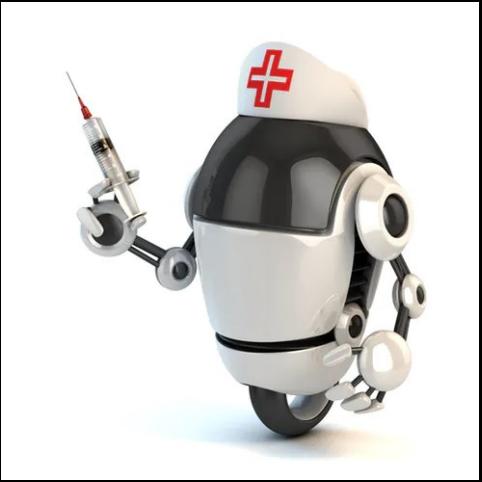

SOME DAY YOU MAY BE ABLE TO RECEIVE THE FRONT PAGE OF YOUR MORNING NEWSPAPER THIS WAY - FULLY PRINTED AND SHOWN ON THE SCREEN OF A TELEVISION SET.
CAN IT BE DONE?

It may not be very long before the news is broadcast by vision instead of the spoken or written word. Rather than : "Can it be done?" we might well ask : "When will it be done?"

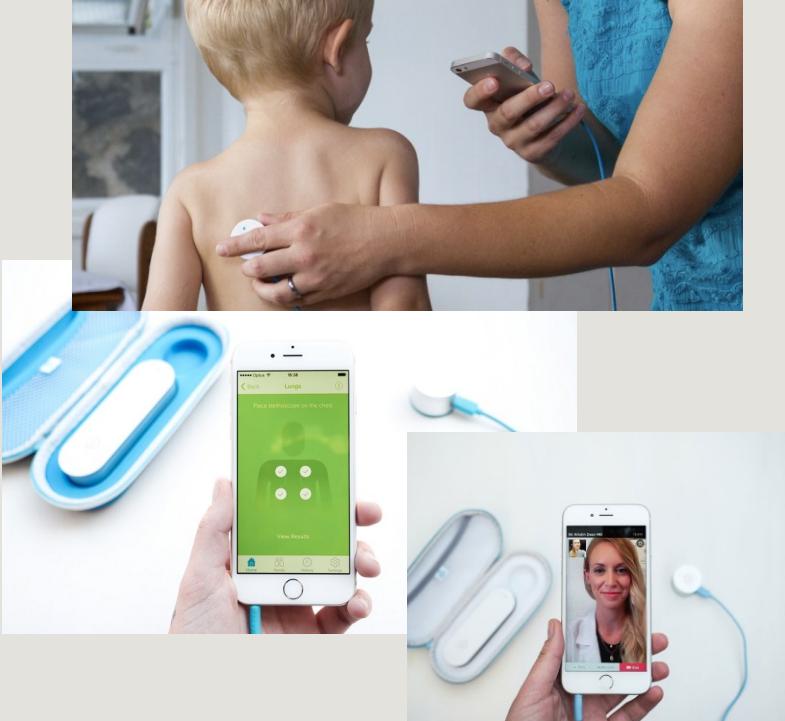

Futur+médecine=?

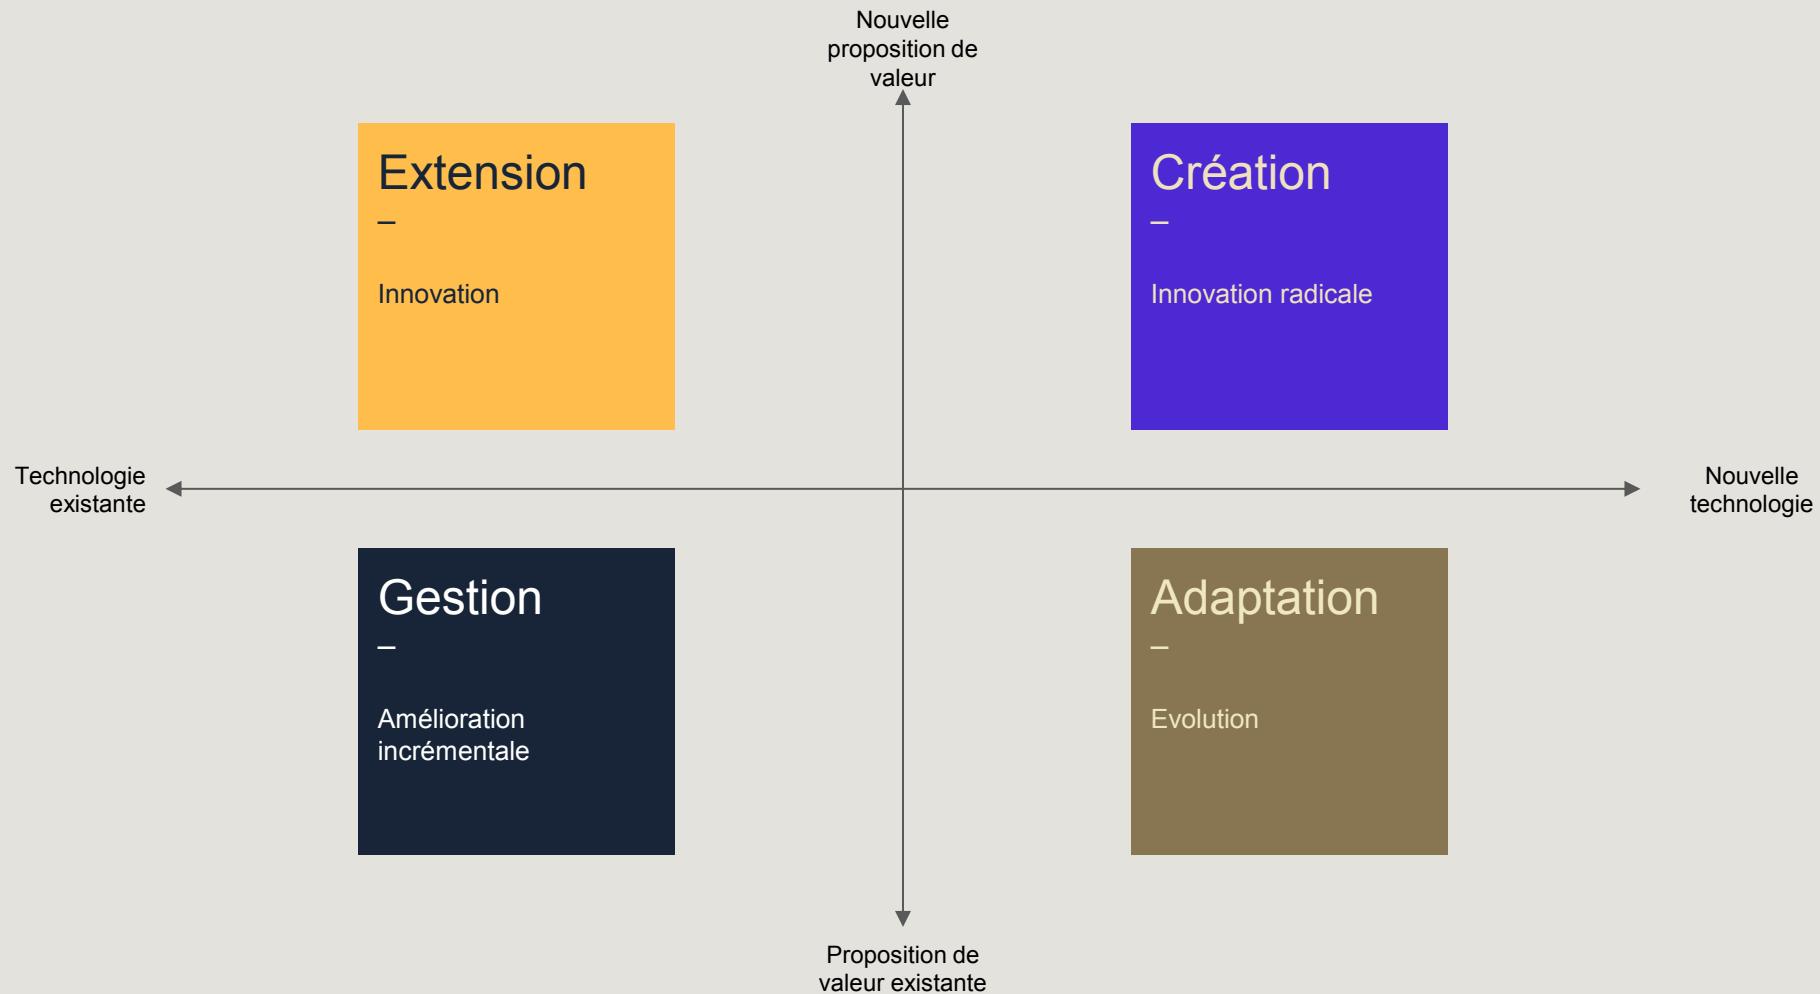

Clinicloud & Doctor On Demand

“The stethoscope and thermometer are gateways to critical information that helps physicians diagnose illness in patients,” says Dr Lin, who is CliniCloud’s CEO.

“By digitising them and connecting them to a powerful app and network of medical professionals, through our partnership with telemedicine partners such as Doctor On Demand, we are empowering every parent and carer to play an active role in healthcare.”

Le futur, vraiment?

Au-delà des gadgets

Modes de vie et de travail

Structures familiales redéfinies

Repères sociaux remis en cause

Entrevoir le futur

Mobile Doctors

Une équipe de médecins itinérants: si tu ne peux pas aller au cabinet, c'est le cabinet qui viendra à toi.

“80% to 90% of what I do in the ER, I could do at home and I can practice in the same ways that I do in the ER. I have everything from vascular access to suturing equipment, to EKG capabilities. Prior to seeing patients, I will triage or utilize telemedicine to assess the situation. If a patient really needs to be admitted to the hospital, I’m not going to waste their time just to charge for a visit they could have avoided.”

Uber Health

L'hôpital mobile par Uber Health

La même idée, mais dans une version différente: c'est le domicile du patient qui devient le cabinet.

About us

Buurtzorg is a pioneering healthcare organisation established 10 years ago with a nurse-led model of holistic care that revolutionised community care in the Netherlands.

Client satisfaction rates are the highest of any health care organisation, staff commitment and contentedness is reflected in Buurtzorg's title of Best Employer (4 out of the last 5 years) and impressive financial savings and increased productivity has been achieved. Ernst & Young documented savings of around 40 percent to the Dutch health care system if all care was provided this way, and a KPMG case study in 2012 found:

Tendances à suivre

01

Maladies chroniques

Un grand potentiel pour diminuer le nombre de visites aux Urgences ou d'admissions à l'hôpital.

02

L'hôpital à domicile

Une bonne solution pour des coûts réduits, des durées d'intervention plus courtes et une efficacité plus élevée.
